

REGISTRATION DAY INFORMATION - Fall SEMESTER 2006

This is the first time the daily enrollment progress report for the Fall term has been tracked prior to Mid-July. Prior to June 6th of this year, we had no comparable date data from last year, and it was only being tracked for week days, M-F. We are collecting data for all days beginning this year. Please take note, the data that are italicized represent the averages between known data points since comparative data is not available.

The traditional report for the remainder of this year is also being modified to show difference in the headcount from the previous comparable date from last year. This is being done for a couple of reasons. First, registration last year didn't open until late May, and registration this year opened in April before classes were over for Spring semester. Second, because of this situation, this year's enrollments are much lower from day to day than they were last year, which means they are converging. We will make periodic predictions based on registration history of when or under what conditions this years numbers might intersect last years numbers.

We are working on a new report which should be finished near mid-July which will allow us to see where the enrollments are coming from (e.g., new college students, transfer, or continuing students). When this report is done, we will continue to send the traditional report while people get used to the new report.

If you have questions, please contact our office. The main office number is 863-7923.

Fall 2006 Data						Fall 2005 Data			Comparative Differences
